Note: Schedule subject to change

Interns may be required to work on holidays if the facility is open for service. If a facility is closed, interns will be required to make-up supervised practice hours. Holidays are indicated on the intern's rotation schedule.

A 2-week break is planned the last 2 weeks in December during the internship period. This is not traditional vacation time but time away from the internship activities. Rotations are not scheduled during the internship break and make up of supervised practice hours are not required.
